

UČEBNÉ POMÔCKY VO VYUČOVANÍ STEREOMETRIE

PERCEPTUAL AIDS IN STEREOMETRY TEACHING

MÁRIA GABAJOVÁ, PETER VANKÚŠ

ABSTRACT. In this article we present three material teaching tools for teaching of solid geometry at primary and lower secondary school. Described teaching tools and activities give to pupils needed manipulative experience. Article serves as inspiration for teachers and students to be teachers to use our activities and teaching tools.

Keywords: teaching, pupils, manipulative teaching tools

Classification: G42, D52
