

AKO UČIŤ STEREOMETRIU NA GYMNÁZIÁCH POMOCOU VOĽNE DOSTUPNÉHO SOFTVÉRU

HOW TO TEACH STEREOMETRY AT HIGH SCHOOL BY USING FREEWARE

IVETA KOHANOVÁ

ABSTRACT. In this paper we describe possible ways how to teach selected parts of solid geometry in upper secondary schools in accordance with lately published textbooks. Firstly we focus on different views (top, front and side view), in the second part we deal with cutting a cube by a plane.

Keywords: solid, stereoemtry, cube, geometry

Classification: G44, D44
